## EXHIBITION

The exhibition provides a platform for companies, publishers, research institutes, universities, and consortia of projects to discuss their products, books, prototypes, research opportunities and results related to speech science and technology. The exhibition will be collocated with the two refreshment areas within the conference center, one next to the plenary hall and the other close to the other lecture and poster rooms. This strategically chosen placement ensures a good integration between scientific content and exhibits and means to boost the dialogue between participants and exhibitors.
